

FOR UK DOMICILIARY CARE PROVIDERS

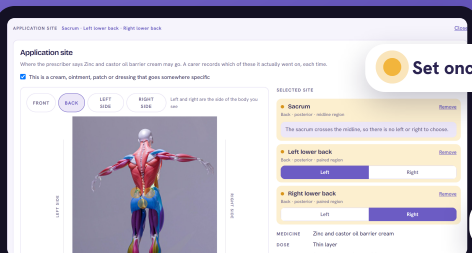

Nanum assigns the visits. You decide only what needs you.

Rota, carer app, medication, family updates and invoicing — in one place, built for domiciliary care.

THE SMALLEST DETAILS MATTER

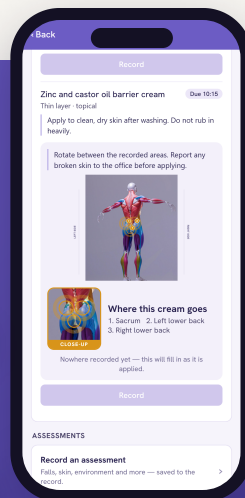

Every detail of care, made easy.

However specific someone's care needs are, Nanum shows the carer exactly what to do, and makes it easy to deliver.

Set once by manager/assessor

Clear at every visit

📍 Stand M60 · Care Show Birmingham 2026

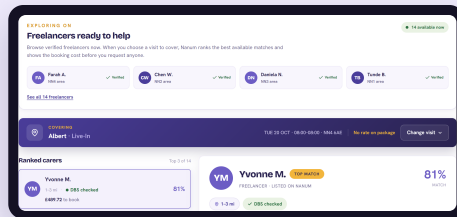

Everything your service runs on. One place.

YOUR DASHBOARD

Every visit on one map.

Nanum fills the rota by proximity, continuity and availability.

SHORT OF A CARER?

Book a verified freelancer.

Nanum ranks who is free nearby and shows the cost before you ask anyone.

SCHEDULING & ROTA

- Visits assigned by proximity, continuity and availability
- "Needs you": decide only what Nanum is unsure of
- Visits at risk flagged before they're missed
- Freelance carers and partner agencies when you're short

CLIENTS, FAMILY & COMPLIANCE

- Family see who's coming and how far away
- Care plans, consent, capacity, charts
- Carer compliance, roles and access

CARER APP

- Check-in, check-out, tasks and handover
- eMAR with body map and clear directions
- Running-late and can't-make-it alerts
- Leave booking and messages

FINANCE

- Invoices to council, NHS or private — split if needed
- Payroll
- Export to accounting, e.g. Xero

HOW NANUM WORKS

Nanum assigns. You decide only what it's unsure about.

1

Nanum builds the rota

Every visit it is sure about is assigned for you.

2

You see only what needs you

Gaps, cover and new clients — a short list.

3

Your word is final

Change anything; Nanum learns and never argues.
